REQUESTED BY: BLUPURA PRODUCTION MANAGEMENT

REASON: DELAY IN SUPPLIES OF STANDARD PE TUBING BY THE SUPPLIER

CHANGES PROPOSAL : REPLACEMENT WITH A DIFFERENT COLOR TUBE DEPENDING ON AVAILABILITY

Dear customer,

we inform you that in the face of delays in the supply of PE pipes as per standard specifications (black and neutral), we are forced to mount PE pipes of different colors in the current production of water coolers with year and month of production identified with the first 5 serial numbers as follows: 22030

The alternative PE pipe will be blue and white depending on the use and production needs.

We will return to using the black PE tube as soon as it is available and supplied by the manufacturer.
