Quarter 1/2025

CODE/FAMILY AFFECTED

Spare Parts

DETAILS

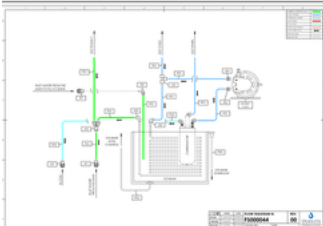

New codes and optimization for 2025

Dear Customer,

We are pleased to inform you that our company has undertaken a major review and improvement of our **spare parts** range, which began last year. This initiative aims to streamline production and logistics for the components provided, **enhancing service for our Dealers** and meeting their needs more effectively.

MAIN UPDATES

- **Updated technical documentation:** we have revised exploded diagrams, flowcharts, spare part lists, and electrical diagrams, now accessible to a wider range of users, including technicians, service companies, and purchasing departments.

- **New generation of spare parts codes (prefix 76xxxx) as finished products:** the new coding enables improved internal processes, bilingual labeling (Italian/English), and additional operational instructions in five languages (Italian, English, German, Spanish, and French) where required.

- **Critical components and certified quality:** key components, such as fittings and tubing, will be provided in minimum quantities or in the original packaging from top international manufacturers..
- **Ready-to-ship warehouse dedicated to our dealers:** to facilitate quick order fulfillment, we have designed a new warehouse exclusively for spare parts dedicated to our dealers.

Il progetto è previsto per l'avvio ufficiale a partire da **gennaio 2025**. In vista di questa scadenza, vi invitiamo a consultare il **File Excel Transcodifica Ricambi Blupura**, che avete ricevuto tramite mail, il quale elenca i codici attuali e i corrispondenti nuovi codici sostitutivi (prefisso 76xxxx). Se non lo doveste aver ricevuto non esitate a contattarci!

We trust that, with this communication in advance, your organization will be able to update its IT systems in time, integrating the new codes and using them to place Spare Parts orders starting in January 2025.

To support you during this transition, our sales back-office and Service teams will be at your disposal.

Best Regards,

the Blupura Team
